THE SAFETY FLOORING SPECIALISTS

WHO IS FLEXITEC?

Flexitec Rubber Surfaces is a specialist division of Logic Australia Pty Ltd and sits alongside the companies two other divisions being; Comcork Flooring and Surefoot Safety Surfaces. Logic Australia is a manufacturer and supplier of various types of safety flooring both in Australia and internationally. For more information on Logic Australia please visit www.logicaustralia.com.au

Flexitec Rubber Surfaces was originally started in 1978 by Tyre Recyclists and over the last 30 years has built itself a strong reputation in the market as the leader in rubber pavers and equine flooring. In 2006 the Flexitec brand was purchased by Logic Australia and it has now been turned into a specialist flooring and surfacing division for the equine market. Flexitec has a broad range of equine products that are made to the highest quality and standards and are designed to meet all equine applications.

WHY CHOOSE FLEXITEC?

With over 30 years experience in the industry and one of the broadest product ranges in Australia, Flexitec is able to deliver complete solutions that can include installation, if required. Our expertise in the specialized equine field allows us to tackle situations that others are simply unable to do or don't understand. Our broad range of products also means we can offer you products for both commercial and domestic equine applications. All of our products are backed with a warranty and can be shipped direct to you anywhere in the world.

WHAT CAN WE DO?

- Stables, Walkways and Breezeways
- Horse Walkers, Aqua Walkers & Lap Pools
- Floats, Trucks, Trailers & Tail Gates
- Wash Bays, Walls & Tie Up Areas
- Veterinary Boxes
- Dressage Arenas

COMMON QUESTIONS & ANSWERS

Do you offer a warranty with your products?

Yes, all of our products come with a warranty ranging from 1 year - 4 years depending on the application and whether we installed it or not.

What is the expected lifespan of your products?

Typically we would expect a lifespan of at least 5 years and up to 10 years. In some instances our products have lasted up to 15 years. This will vary, once again depending on the application.

Are rubber mats slippery when wet?

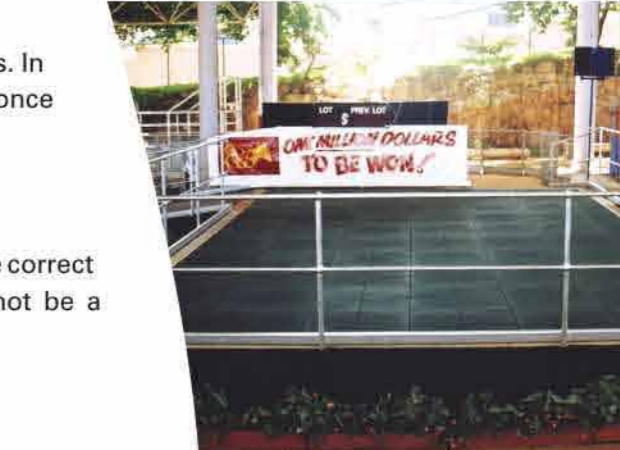

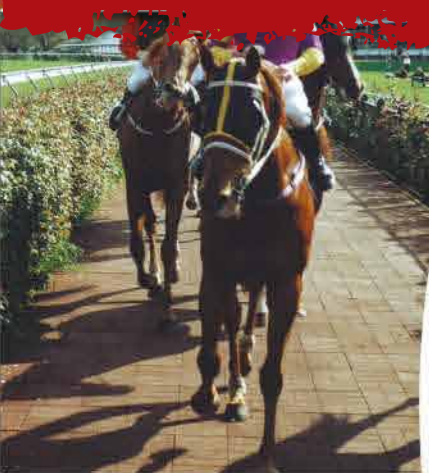

No. Flexitec has special products for both wet and dry areas. As long as the correct product is chosen for the right area and maintained correctly it will not be a problem.

How do your prices compare to other companies?

In terms of quality and pricing most of our products are of a commercial nature and as such our pricing typically reflects this. Thanks to our broad range of products, if you are on a budget and price is important we will always be able to find a product to meet your needs.

Can we install the products ourselves?

Yes. In fact in most cases we encourage this. We have people that can help talk you through the process and offer good advice. In regard to larger commercial projects, we will always offer you an option for installation because of the specialised nature this type of work entails.

STABLES, WALKWAYS & BREEZEWAYS

Reduce your bedding costs by over 50%

- 30 years experience has proven that only 100mm depth of bedding is needed over Flexitec Stable Mats.

Improving your horses breathing

- Quicker mucking out allows bedding to be changed more often, reducing bacteria build up and the inhalation of dust from old bedding.

Improve the look and feel of your facility

- Flexitec's broad range of equine products are good looking, comfortable under foot and easy to maintain.

Create a safe environment for your horses

- We have a wide range of rubber mats and rolls that can help make your stables and walkways safer for your horses in both wet and dry conditions.

FLOATS, TRUCKS, TRAILERS & WASH BAYS

Reduce your fuel bill during transportation

- Flexitec has high quality mats specifically designed for floats, trucks and trailers which are thinner and help to reduce the extra weight when transporting animals.

Reduce your Veterinary costs

- Flexitec's resilient, non-slip surface eliminates scuffed hocks and abrasions from slips and falls and is an excellent 'non-fatigue' surface for horse.

Reduce slippery areas in wash bays

- Reduce the potential for trips and slips around water with the use of matting that has been designed for use around water and wet areas.

Keep your horses safe during transport

- As commercial transport companies will testify, your horses safety during transport is critical. Our range of rubber matting and rolls will help you achieve this.

HORSE WALKERS, AQUA WALKERS & LAP POOLS

Reliable flooring for commercial use

- Flexitec uses heavy duty and long lasting rubber flooring in walkers that is designed for continuous commercial use, again and again.

Piece of mind underwater

- Having installed numerous aqua walkers and lap pools in the past, Flexitec understands what it takes to supply and install product for use underwater.

Attention to detail with fixtures and fittings

- An important part of the installation in walkers and pools is the fixtures and fittings. We have a wide variety of solutions and ideas to tackle all types of commercial situations.

Installation can be arranged for you

- Typically our commercial clients prefer us to do the actual installation for them because of the specialized nature of the works.

CUSTOMISED SOLUTIONS & INSTALLATIONS

Everything is possible, one way or another

- Over the years we have been given plenty of challenges in the equine market and we will be happy to discuss your unique ideas with you.

Special products for special applications

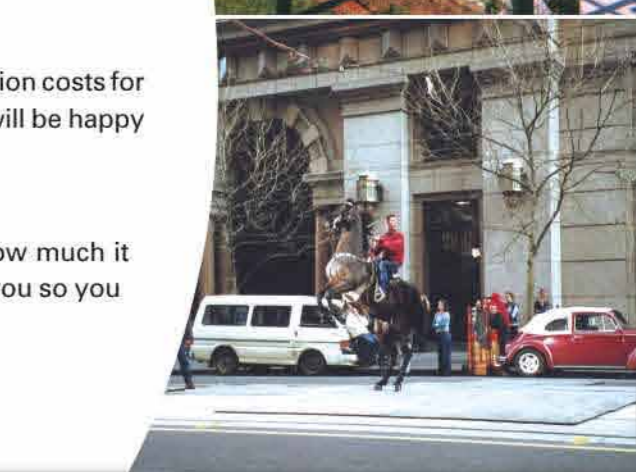

- Thanks to our manufacturing background, we have access to a wide range of machinery and expertise, both in Australia and internationally. We can either custom make or find new products for you if required.

Installation is always optional

- Typically when we quote on larger projects, we will itemize the installation costs for you. In the event you would prefer to do the installation yourself, we will be happy to just supply you with the product and offer you advice.

Quotations are available on request

- If you have an area you are thinking about doing but are not sure how much it would cost, we would be happy to arrange a no obligation quote for you so you can plan ahead.

RUBBER MATS

Stable, Walkway & Cow Mats

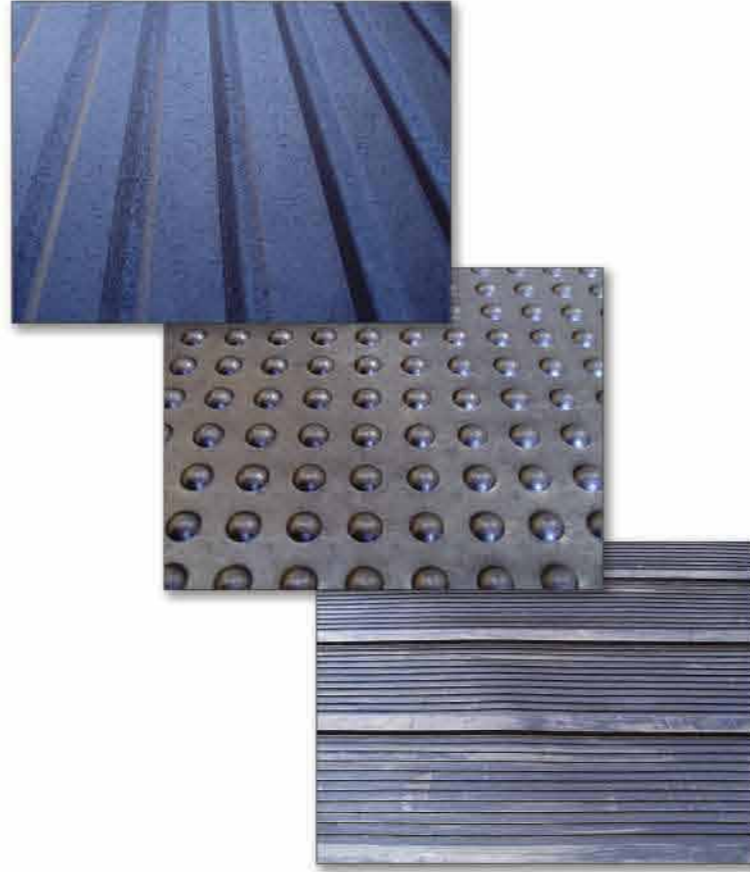

- Rubber 19mm thick, 1200mm x 1800mm or
- Rubber 19mm thick, 1500mm x 2100mm
